TECHNICAL SKILLS

Strong: JavaScript, ES6, React, Redux, Node.js, Express, Vue.js, JQuery, HTML5, CSS3, Bootstrap, SASS, SCSS, UI5, SAP HANA Cloud platform

Experienced: Java, SAP HANA Web IDE, Webpack, Gulp, C#, .NET, Python, Django, OpenUI, SAPUI, Amazon Web Services, Ubuntu, Git, PHP, Apache2, MySQL, SQL

Tools: Github, BitBucket, JIRA, Postman, Chrome DevTools, MAMP, PHPStorm, Visual Studio, Slack, MeisterTask, Eclipse

Applications Developed

[Super Smash Stats] Live | github
- Group project with a team of five developers that manipulates big data from a database, and displays it on a web page where users can search and sort for the information.
- Inserted 100,000 matches of data onto **Ubuntu** server from **Amazon Web Services** with **SQL** statements on a **MySQL** database using **Node.js** and **Express**.
- Executed **Axios** to make **AJAX** calls to the database to retrieve information for web page that was created with **JavaScript**, **React,** and **Redux**.

[Piano Match] Live | github
- Utilized **HTML5** to create a basic skeleton with **SASS, SCSS** and **CSS3** with **Bootstrap** to apply styling.
- Dynamically created piano keyboard with **JavaScript** and **JQuery** and audio object that plays musical note.

[Movie Hopper] Live | github
- Independent project where the user inputs a zip code to retrieve a list of theaters, then selects a theater to obtain movie showtimes to create their own movie schedule.
- Developed client side with **JavaScript** framework **React** and **Redux** and also used **Axios** to make **AJAX** calls to the server side.
- Scraped theater information and movie showtimes from IMDB using **Node.js** and **Express** and set up endpoints for client side to grab the data from the server.

Professional/Additional Experience

Software Applications Developer / Technical Consultant @ Contax Inc. (2018 - Present)
- Manage project front end using Javascript frameworks.
- Collaborate with developer team from around the world on construction of project to meet deadlines
- Research and implement new ideas to enhance the design of the company project

Case Manager/Program Specialist @ Covance Market Access (2015 - 2016)
- Processed inbound and outbound calls from patients, providers, doctors and pharmacists.
